

Quais medidas considerar para os tubos Corning?

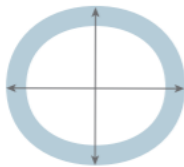

1. I.D.
Diâmetro Interno do Tubo

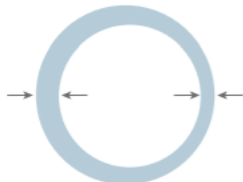

2. O.D.
Diâmetro externo do tubo

3. Wall
A espessura do vidro entre as superfícies interna e externa do tubo.

4. O.O.R.
A diferença entre o valor mínimo e o diâmetro externo máximo.

5. Siding
A diferença entre o valor mínimo e a espessura máxima da parede medida no final do tubo.
